

The Bible is true from its first words. Clearly scripture teaches that God created everything in six literal days. It is also clear from Biblical genealogies, and historical dates, that this was about 6000 years ago. If you don't believe what God says about creation, Adam and the flood, why believe the rest of scripture?

I have been studying apologetics, especially the creation/evolution debate, for years now and want to help churches in educating their congregations to defend their faith.

### ***Kids Presentations:***

Dinosaurs and Creation: When were dinosaurs created?

Dinosaurs and the Flood: What happened to dinosaurs at Noah's time?

Dinosaurs: Where did they go? What happened after the flood?

How Big was the Ark? My 1:87 scale (HO) Ark presentation where I show kids how big the ark was compared to things they know including cars, animals, etc.

For kids age 6-12. Each talk is approximately 20-30 minutes. Designed to teach kids dinosaurs do NOT contradict Biblical history.

***Q & A Sessions:*** I can help with creation Q&A sessions for any age.

### ***Adult Presentations:***

Evolution vs. Science: The Evolutionist world view breaks the laws of nature, but the Biblical view does not. (This is new and I don't have a slide show for it yet but I could give it off the top of my head.)

Creation Crash Course An upcoming presentation where I go over the whole Creation/evolution debate covering many subjects in short segments.

Cost: FREE (though I am not opposed to donations for gas, buying props to show kids (fossils get expensive), etc.)
