

The Bible is true from it's first words. Clearly scripture teaches that God created everything in six literal days. It is also clear from Biblical genealogies, and historical dates, that this was about 6000 years ago. If you don't believe what God says about creation, Adam and the flood, why believe the rest of scripture?

After studying the creation/evolution debate for years, I want to help Christians to defend their faith.

Kids Presentations:

Dinosaurs and Creation: When were dinosaurs created?

Dinosaurs and the Flood: What happened to dinosaurs at Noah's time?

Dinosaurs: Where did they go? What happened after the flood?

How Big was the Ark? My 1:87 scale (HO) Ark presentation where I show kids how big the ark was compared to things they know including cars, animals, etc.

For kids age 6-12. Each talk is approximately 20-30 minutes. Designed to teach kids dinosaurs and science do NOT contradict Biblical history.

Q & A Sessions: I can help with creation Q&A sessions for any age.

Adult Presentations:

Evolution vs. The Laws of Nature: Evolution breaks the laws of nature but the Biblical view does not. (Split into two parts: Cosmology and Biology.)

Personalizing Faith: Teaching kids and others to make their faith their own.

21 Questions: 20 questions every Christian should be able to answer about Genesis, plus one question about the questions.

Dinosaurs: Where are they now? Dinosaurs in history and modern times.

Creation Crash Course: The whole Creation/evolution debate in short segments.

Cost: FREE (though I am not opposed to donations for gas, buying props, etc.)

Contact: Tim Coats 503-371-2651 tim@coatsgalleries.com
